Manufacturing Facility Holding Open House Thursday

By Susan Pieper

A new company has taken up shop in Rocky Ford's Industrial Park and the public will have a chance to tour the manufacturing facility of Innovative Water Technologies tomorrow (Thursday).

Event will be held from 3 p.m. to 4:30 p.m. in the facility which formerly housed a portion of Oliver Manufacturing and most recently was the home of ATT (Advanced Transportation Technologies).

The company which currently has its manufacturing base in Rocky Ford, is owned by Jack and Carmen Barker and has its headquarters in Dumont.

the company's public affair consultant, Innovative Water Technologies manufactures Sunspring®, a "portable, self-contained, solar-powered water purification system that can process enough clean drinking water for remote campgrounds, worksites, emergency response sites and small villages around the world at a reasonable cost."

The facility has the capability of producing 30 Sunspring® units per month and can increase that production to 100 units monthly.

Company information indicates one unit can provide up to 5,000 gallons of pure water daily and is "self-cleaning, efficient and easy to main-
